

Digital Learning Strategy

We will ensure that all **SIX CORE DIGITAL PRIORITIES** are placed at the forefront of the College's drive towards outstanding by 2025 by undertaking the following:

1

Develop curriculum staff confidence in the use of digital technology in their delivery sessions to support the development of learner skills, knowledge and behaviours and improve the quality of education.

2

Develop support staff confidence in the use of digital technology to enable business continuity, efficiency, and effectiveness.

3

Develop learner confidence to access digital delivery to improve outcomes and enhance their employability and life skills.

4

Maintain and invest in digital resources and equipment to support the development of a robust digital infrastructure.

5

Foster a culture where digital technology is valued and embraced and there is collaborative good practice among staff, learners, and key stakeholders.

6

Horizon scan the industrial sectors we serve to ensure digital developments in those sectors are showcased to our learners, and our curriculum offer becomes leading edge.
